CAREER SUMMARY

Full-stack developer who loves turning real-world problems into simple, reliable software. Certified in Laravel and Vue.js, and also builds with Python (FastAPI, Django) and Flutter, taking applications from database design to user interface. Brings hands-on experience testing and troubleshooting live SaaS products, and is now expanding into test automation with Playwright.

WORK EXPERIENCE

Support Engineer Intern | AppifyLab — Sep 2026 – Nov 2026

- Tested and troubleshot client-reported issues in three live SaaS products: EzyCourse, EzyCommunity and Skreno.
- Reproduced issues using browser console logs, API responses and cross-browser/device checks, and reported confirmed bugs to developers with clear steps to reproduce.
- Tested new features with the product team before release and shared user-experience feedback.
- Supported clients by email, chat and video call, and tracked every issue to resolution on Trello.

TRAINING & CERTIFICATION

Laravel Vue Developer Program | IT Lab Solutions **Certificate** — 2026

Five-month on-site training with industry experience in Laravel, Vue.js and MySQL; built House Rent System as the course project.

Facilitator Development Program (FDP) | Bangladesh Youth Leadership Center (BYLC) **Certificate** — May 2026

KEY PROJECTS

Noor-AI: Cite-or-Abstain Islamic Question Answering *Python, FastAPI, Laravel, MySQL* — Thesis

- Built a hybrid search engine (BM25, embeddings and a reranker) over **470,321 passages** in Bangla, Banglish and English that quotes sources word-for-word and declines to answer when evidence is weak.
- Designed a **140-question** labeled benchmark with a 13-configuration evaluation harness, and a Laravel blind A/B portal for scholar rating.

House Rent Management System *Laravel, MySQL, Bootstrap* — IT Lab project

- Built property listings, a booking workflow, visit appointments, reviews and in-app chat with XSS-safe rendering.

Tazkiyah: Islamic Learning & Community Platform *Laravel, MySQL, Tailwind CSS, Docker* — Live demo

- Built a community feed, habit tracker, quizzes, real-time chat and an LMS with an AI assistant across **100+ routes**.

TECHNICAL SKILLS

Testing: Manual & exploratory testing, test case design, bug reporting, regression testing, Postman, Chrome DevTools, Trello, Playwright & TypeScript (learning)

Development: PHP, Laravel, Vue.js, Python, FastAPI, Django, JavaScript, Flutter, MySQL, REST APIs, Git, Docker

EDUCATION

B.Sc. in Software Engineering | Metropolitan University, Sylhet — 2023 – 2026 (expected)

CGPA 3.96 / 4.00 · **Vice Chancellor's Scholarship** and **Chairman's Scholarship** for perfect 4.00 GPA
